- Food	1
- Nature and Scenery	1
- Celebrations	1

VLAHO BUKOVAC HOUSE & GALLERY

“It is very important to act on establishing Cavtat as the birthplace of Vlaho Bukovac, most famous Croatian painter, as well as to work on better presentation of his work legacy to locals and many foreign visitors.”

“... because his artworks greatly contributed to the world and national cultural heritage.”

THE RAILWAY

“The railway line along the route from Sarajevo to Zelenika in the Bay of Kotor passed through Konavle in length of 33 kilometres and it represents a remarkable monument of industrial architecture. It was built during the Austro-Hungarian Monarchy and was in function from 1901 till 1968. It was the economic and commercial impetus of the region. On this railway line there were four tunnels, seven railway stations, one bridge and a number of warehouses and water pumps. In addition to the tunnels broken through carst rocks which entrances and exits were done in regularly shaped and carved pieces of stone, there is a rare example of architecture representing the turning tunnel near the station in Mihanići where the train went down to the sea. The railway line or locally called štrika among the local population is a symbol of professional and thorough construction of the previous state.”

MITHRAEUM

“Mithraeum in the village of Močići is a religious monument that belongs to the cult of the God Mithras. It is an old Indo-European Deity and originally Mithras comes from Persia. Mithraic sanctuary in Močići is called spaeleum as it is located in a natural setting of a cave. It dates from the 3rd century A.D. The scene expressed in relief called Tauroctony, shows God Mithras dressed in oriental manner who kills the Taurus stabbing a knife to its chin which symbolises the struggle of light and darkness, the good and evil.”

ZELENA MENESTRA

“Zelena menestra is an authentic dish from Konavle, dating from 1580 and soon to be on the UNESCO list of protected intangible heritage. The dish consists of different varieties of dry meat, homemade sausage, 3 types of cabbage, potatoes and pork fat.”

It is usually prepared during Christmas holidays.”

PRESERVE THE NATURAL LANDSCAPE

“... It is necessary to prevent the devastation and preserve the beautiful nature and landscape of Konavle region.”

REMARKS

- Some questions are confusing to stakeholders
- Too many categories?
- Collected information is not complete

THANK YOU FOR YOU ATTENTION!
Questions?
